Description

Unstoppable performance for standards range 1D/2D barcode capture

As a member of the Zebra 3600 Ultra-Rugged Series of scanners, the practically indestructible 1D/2D DS3608-SR corded and DS3678-SR cordless scanners are ready for the world's toughest environments — the warehouse and manufacturing floor. Designed to capture virtually any barcode from near contact to as far as 5 ft./1.5 m away, these scanners are loaded with features that deliver truly unstoppable performance, redefining reliabiltiy and management simplicity. The result? The dependable, fast and accurate scanning you need to take the quality of your products and your customer service to the next level.

- **Superior Performance**

  You get the ultimate in scanning performance — period. Your workers can scan virtually any 1D or 2D electronic or printed barcode in any condition, as fast as they can pull the trigger. With 30 percent more working range, it's easy to capture barcodes that are farther away. Even if barcodes are under shrinkwrap or damaged, dirty or poorly printed, no problem — this intelligent scanner can handle it all.

- **Ultra-Rugged Design**

  The manufacturing plant floor is as tough as its gets — and the cost of unplanned downtime on the production line is astronomical. That's why we created a new product category — the ultra-rugged scanner. The corded and cordless models are the only scanners in this class that are dust-tight, sprayproof and waterproofed to IP67, with an IP65-sealed cradle for a complete rugged cordless solution.

- **Unrivaled Manageability**

  With our complimentary industry-best tools, managing these scanners couldn't be easier. You can remotely configure and upgrade your scanners, format data properly for instant transmission into your business applications, monitor battery statistics for your cordless

models and more.

Capture multiple barcodes with one scan

In addition to superior scanning performance, an ultra-rugged design and unparalleled manageability, you get more features that make this scanner easier than ever for your workers to use, including a special mode that simultaneously captures all or specific barcodes on a label with many barcodes; an aiming pattern for first-time accurate capture of barcodes on pick lists; mix-and-match feedback modes so workers can see, hear or feel successful scans; an extreme temperature rating for freezer use and more.

- ### Battery

  PowerPrecision+ 3100 mAh Li-Ion rechargable battery
  (For cordless models)

- ### Sealing

  Scanner: IP65 and IP67
  FLB cradle: IP65

- ### Drop Tolerance

  Withstands multiple 8-foot / 2.4-metre drops to concrete

- ### Decode Capability

  1D and 2D

- ### Scanning Technology

  Array Imaging
