

DS4208-HC

The DS4208-HC can capture 1D and 2D bar codes on wrist bands for patient ID, pharmaceuticals, blood bags, suppositories, syringes for medication administration and specimens for tracking – as well as mobile phone and computer displays. This single affordable and easy-to-use device can error-proof and streamline processes in practically every area of your healthcare facility – from admitting and medication administration to specimen collection, inventory, dietary management and discharge. Plus with IP43 sealing and a specially designed plastic housing, the DS4208-HC is disinfectant-ready to allow safe wipe-downs and sanitizing after every use.

Description

Features & Benefits

Disinfectant-ready

IP43 sealing and a specially designed plastic housing allows safe wipe-down and cleansing with a wide variety of harsh chemicals (See Specification Sheet for approved agent and cleanser lists)

Lightweight ergonomic design

Easy to hold regardless of hand size; reduces fatigue; enables all day scanning comfort to protect productivity in scan-intensive applications

Superior durability

Motorola's best-in-class drop specification — the ability to survive 6 ft./ 1.8 m drops to concrete — and IP43 sealing ensure reliable operation despite everyday spills, drops and bumps

Comprehensive advanced data capture

Capture many different types of data with just one device: scan virtually any 1D or 2D bar code on any medium — including mobile phones and computer screens; supports the creation and maintenance of electronic medical records (EMRs)

Superior high performance scanning on all bar codes

Delivers laser-like performance on both 1D and 2D codes; rapid and accurate capture of even poor quality and damaged bar codes

Omni-directional scan pattern

Eliminates the need to precisely align bar code and scanner for fast, easy and comfortable scanning; protects caregiver productivity

Supports all common interfaces

Easy integration with your existing technology environment; easily migrate to new hosts

Compatible with 123Scan² and Remote Scanner Management (RSM)

Reduces management time and cost, from initial configuration to day-to-day management
