### Description

#### **GIVE YOUR FIELD WORKFORCE THE TOOLS THEY NEED TO WORK FASTER AND SMARTER**

Give your field workforce the tools they need to work faster and smarter with the rugged MC67 Series. This fully-featured device lets workers access information in your backend system; scan practically any barcode in almost any condition; capture documents to simplify recordkeeping; take and send video and photos for real-time repair support; and call a customer with an arrival window.

So whether your mobile workers are fixing equipment, picking up or delivering shipments, taking customer orders, inspecting buildings or restaurants, issuing citations or collecting competitive information, give them the latest tools to get more done right — all in one super rugged device that loves life in the field.

- **High-speed cellular and Wi-Fi wireless connections**

4G HSPA+, 802.11a/b/g/n, Bluetooth 2.1 EDR and best-in-class GPS brings your workers the best voice, data and peripheral connections available.

- **Our most rugged compact mobile computer**

Whatever your employees dish out, the MC67 can take it. You can drop it on concrete and even in water. Use the MC67 in heat, cold, rain, snow and more.

- **High-speed Wi-Fi**

802.11a/b/g/n provides outstanding performance when connected to the Wi-Fi office network or hot spots.

**A COST EFFECTIVE LINE EXTENSION THAT REDEFINES FIELD WORKFORCE PRODUCTIVITY**

The MC67 Base is a cost effective extension to the MC67 Series. Customers looking for a rugged, entry level platform, the MC67 Base gives your field workforce all the productivity capabilities, backward compatibility to the MC65 and MC55 accessories and access to your business systems as the MC67 Premium. Running Windows® Embedded Handheld 6.5, the MC67 Base has the power to support complex applications, high-speed flexible cellular and Wi-Fi wireless connections and the ability to capture just about every type of data. The result? Better customer service. Better customer satisfaction. Better customer retention.
