

ZD200

Don't sacrifice quality for affordability. Zebra's ZD200 Series desktop printers give you more. Zebra-quality engineering, reliable operation and basic features at an affordable price—both at the point of purchase and across the entire lifecycle. These printers boast dual-wall construction and all-metal printheads — components not often found in a basic printer. With an industry best out-of-box experience, they are simple to install and begin printing. Key features include USB connectivity for universal interoperability, along with a single LED status indicator and single button for feed/pause for easy operation. Backed by Zebra's trusted network of more than 10,000 partners, support is available anywhere around the globe. And, they're ENERGY STAR® qualified to reduce operational expenses. Built to last for years, ZD200 Series printers provide an outstanding return on investment.

Description

BEST OUT-OF-BOX EXPERIENCE

You need to get printing—quickly and easily. With an industry best out-of-box experience, the ZD200 Series is simple to install and begin printing. USB connectivity allows for universal interoperability. Easily replace legacy printers using ZPL, EPL or non-Zebra command languages. Media changes are quick with Zebra's OpenACCESS™ clamshell design to keep your workflows moving.

BASIC FEATURES FOR SIMPLE OPERATION

The ZD200 Series gives you just what you need, nothing you don't. Choose from direct thermal or thermal transfer models. A single LED indicator and single button for feed/pause make it easy to operate and identify printer status. Add an optional factory-installed peeler for easier media handling. Store more fonts and graphics with increased memory. And, produce labels quickly, up to 6 inches per second, to keep operations in motion.

BACKED BY ZEBRA'S WORLDWIDE SERVICE AND SUPPORT

You don't have time for delays. Access support quickly anywhere around the globe through Zebra's trusted network of more than 10,000 partners. Avoid costly repairs and downtime with an affordable service plan that's tailored to the coverage you need for your desktop printer.
