#### Description

#### **Taking the 105SL Plus to a New Level With Expanded Performance and Value**

Building on the legacy of the industry-leading, 105SLPlus printer, the ZT510 includes the core features you need in an industrial printer at a cost-effective price point. The ZT510 provides a proven, durable design and construction while adding advanced management and monitoring capabilities. That means you get 24/7 reliability to keep your operations running smoothly today, plus longevity and advanced functionality to power through every challenge in the years to come — all at an exceptional value.

- **Exceptional Performance in the Harshest Conditions**

Boost your productivity with printers that just won't quit. The ZT510 builds on the legacy of its industry-leading predecessor, the 105SLPlus. Durable steel structural components can withstand years of abuse in extreme temperatures, dust, debris and other challenging industrial conditions, and meticulously engineered printing mechanisms provide 24/7 reliability to meet your high-volume production needs.

- **Operational Visibility, Remote Management and Future-Ready Adaptability**

Zebra's cloud-accessible Link-OS software platform and managed services offerings give you total visibility and control over your printing systems, whether you're onsite or across the globe. Plus, with two available communication slots, field-installable media-handling options and optional USB Host for plug-and-play integration, it's easy to stay ahead of your evolving business and technology needs, whatever they may be.

- **A Value That Won't Break Your Budget**

For cost-conscious decision makers, the ZT510 offers next-generation print performance at an exceptional value. It provides high-duty cycle, rugged reliability, fast processing, advanced Link-OS capabilities and all the basic features you need — without the added cost of those you don't.

### Performance and Value

Designed to strike the ideal balance between performance and value, the ZT510 includes the core features you need in an industrial printer at a cost-effective price point.
